**Claim Rejections - 35 USC § 112**

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

*The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.*

2. Claims 1 and 4-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding to Claim 1, line 11, the claim feature "the optimal liner velocity coefficient specified by said specifier" is not clear because the claimed specifier specifies "a liner velocity coefficient", but not the "optimal liner velocity coefficient". In addition, in line 15, the claimed feature "a liner velocity coefficient" is not clear because there is already another "a linear velocity coefficient" exists in line 6. In other words, it is not clear which liner velocity coefficient is used in the first relational expression as claimed in line 14.

The claims not specifically mentioned above are indefinite based upon their dependence on an indefinite claim.

Art Unit: 2627

**Related Prior Art**

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sunagawa (6,442,119) is pertinent because Sunagawa teaches a disk apparatus having an optical recording apparatus having recording powers correspond to disk speed.

**Response to Remarks**

4. Applicant's Amendment and Remarks filed on August 31, 2009 have been fully considered. However, the amended Claims does not clarify the claimed feature "the optimal linear velocity coefficient" and the additional "a linear velocity coefficient". Claims 1 and 4-8 are further rejected under 35 U.S.C. 112, second paragraph.

**5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).**

**A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.**
